We are pleased to announce that 3D body scanning is now ongoing at the ACARETM premises on Chiromo Lane. This is the first phase and involves body measurement using state-of-the-art technology that was unveiled at the Gifts and Talent mini conference in March 2010; the first in Sub-Sahara Africa.

### **Who can be measured?**

*Anyone aged six years and above*

### **Benefits?**

*You get to know your body size and shape in 3D digital data that could be utilized for clothing, health and fitness, brain and knowledge diametrics, gifts and talent testing, career management advice, nutrition and health, and other medical applications.*
